

Subject: Science

Grade: Grade 5

Subject teacher: Ms. Rachell Ann

Date: From October 14, 2018 to October 18, 2018

What are students expected to know by the end of the week?

By the end of the week, the students are expected to discuss the concepts on gravity.

NOTE: FIRST QUARTER ASSESSMENT (TEST) WILL BE ON OCTOBER 14, 2018 SUNDAY.
Summary of the lesson/reviewer and sample practice test were given to them before hand. Please use those materials to review your child.

Resources needed during instruction.

During our class discussion, flashcard will be used to deepen their understanding on the concepts. Worksheets and note taking strategies are essential part of class discussion.

Homework and Projects to accomplish

NOTE: FIRST QUARTER ASSESSMENT (TEST) WILL BE ON OCTOBER 14, 2018 SUNDAY.
Summary of the lesson/reviewer and sample practice test were given to them before hand. Please use those materials to review your child.

How can parents help their children to practice the learning task at home?

Parents are encouraged to take part in reviewing the concepts at home. The use of flashcards and picture is a big help.

Use the review paper for Science in reviewing at home. Remind them to eat their meals before going to school.
